

# **AFRICAN INSTITUTIONAL REPOSITORIES**

**AS CONTRIBUTORS TO GLOBAL  
INFORMATION: A SOUTH AFRICAN  
CASE STUDY**

# OUTLINE

- Introduction
- Institutional Repositories in Africa
- Institutional repositories in Southern Africa
- The University of Zululand
- UZSpace
- Challenges and success Factors
- Current Status of the project
- Insights gained
- Future Plans
- Conclusion

# INTRODUCTION

Open access IRs are entrenched in developed world

**African IRs still experience challenges**

**SA leading country in Africa**

**Smaller institutions face challenges**

**The importance of harvesters**

# INSTITUTIONAL IR IN SA

- **SA IR constantly growing**
- **14 in 2009**
- **Currently 24**
- **First steps taken in 1999 – SARIS**
- **Funding models**
- **eIFL**
- **Mellon Foundation**

# IR DEVELOPMENT

- **Most started as ETDs**
- **University of Pretoria one of earliest IR**
- **University of Zululand in rural setting**
- **Unique challenges to be faced**
- **Valuable lessons learned**

# UNIZULU

# A case study: uzSpace

- **Remote rural location**
- **Resources not readily available**
- **UZSpace managed by LIS**
- **16000 students, 40 plus active researchers, 450 post graduates**
- **Access to local content**
- **Uzulu hard copy collection - IKS**

# The UZSpace project

- **Started 2007**
- **IR steering committee 2008**
- **Chaired by deputy director**
- **Linked with research committee**
- **Linked with eLearning committee**
- **A phased process adopted**

# Three Phased Process

Phase 1: Obtain and install required hardware and equipment, digitise existing dissertation and thesis and create metadata records

Phase 2: Add newly completed research output for Masters and Doctoral research as well as exam papers in PDF format and create metadata records

Phase 3: Add file for Indigenous Knowledge sources, expand to include all completed research articles

# Implementation

- **Mellon Funding for server**
- **OCR scanner obtained**
- **Retrospective digitization**
- **External agent used**
- **Implementation plan with responsibilities, time frames**
- **Draft policy document**

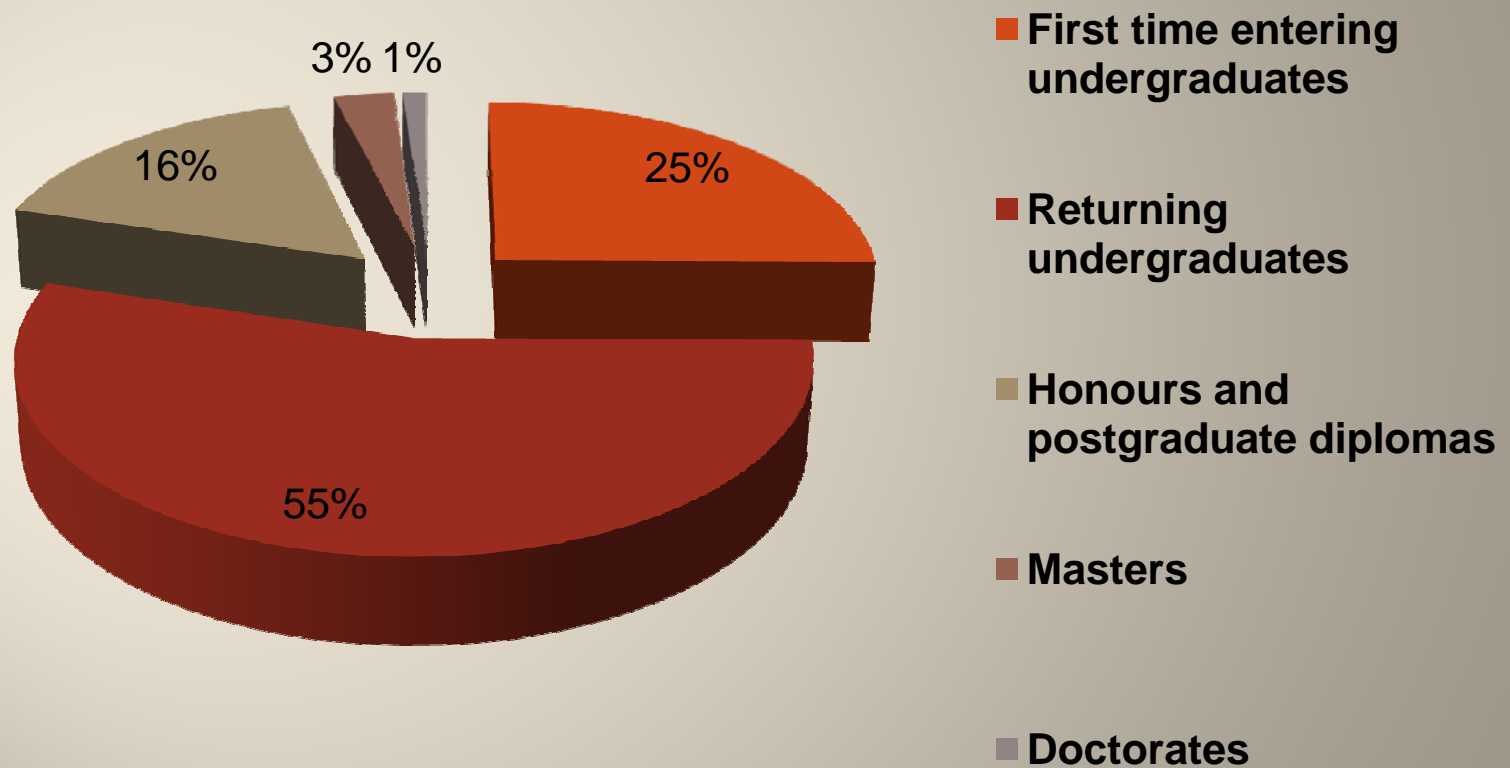

# Implementation Cont.

- **Initially shared system support with DUT, MUT**
- **Not institutional archive**
- **Decide what is local content for inclusion**
- **New skills required for meta data editing etc.**
- **No additional staff - added responsibility**
- **Intensive training and marketing programme started**

# Institutional Attitude

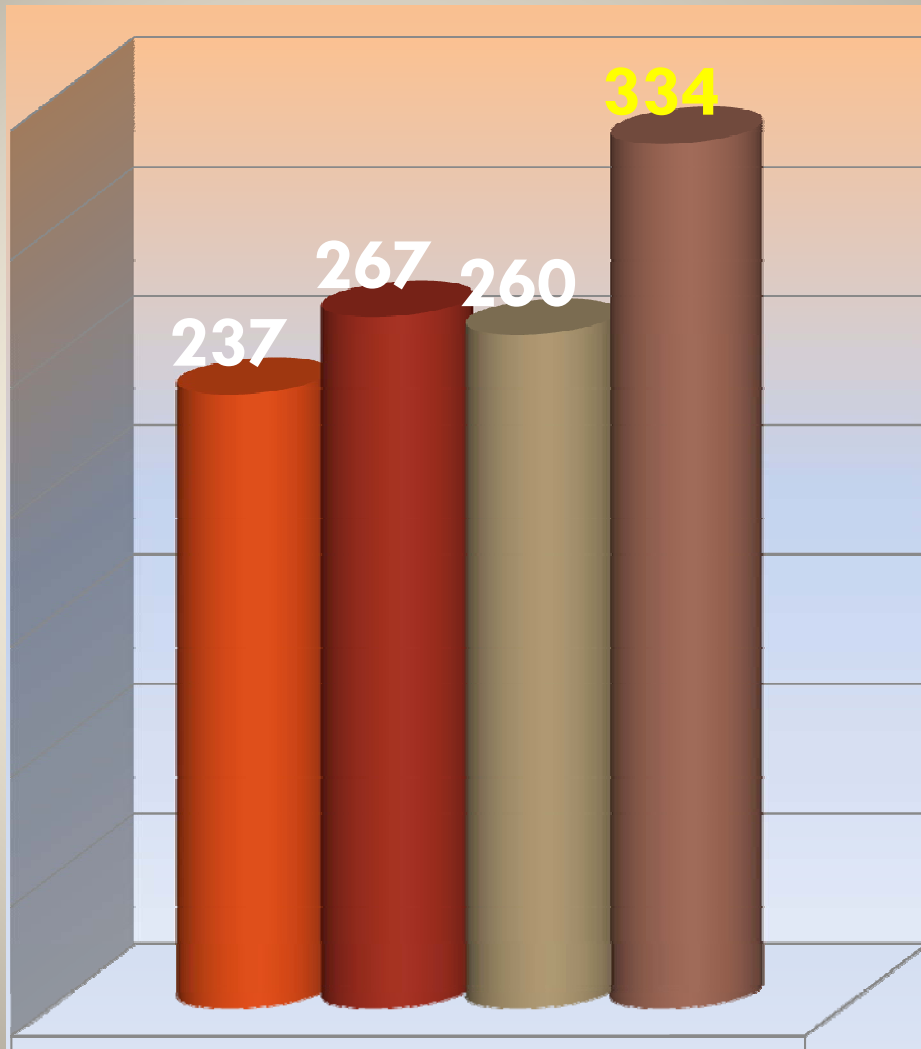

- **Initial reluctance by researchers to participate**
- **Awareness sessions started**
- **Self-archiving slow to take off**
- **Currently 970 dissertations and theses**
- **Sudden increase in usage**
- **Registered with harvesters**

# Current Unizulu Community

# COMMUNITY USAGE

**March-Sept access 2010**

- Faculty of Commerce, Administration and Law
- Faculty of Education
- Faculty of Science and Agriculture
- Faculty of Arts

# Short, Medium term planning

- **First phase completed successfully**
- **Long term preservation and curation needs addressing**

# USAGE

- **2008 -2009 moderate usage**
- **Steady increase 2010**
- **2011 – registered with harvesters**
- **Significant increase**
- **Global accessing and searches**
- **China registers high usage**

# **THE UNIZULU RESEARCH ENVIRONMENT**

## **PRO'S**

- **“A” rated researchers**
- **Research funds available**
- **Library well equipped e-resource collection**
- **First phase of IR implementation well received**

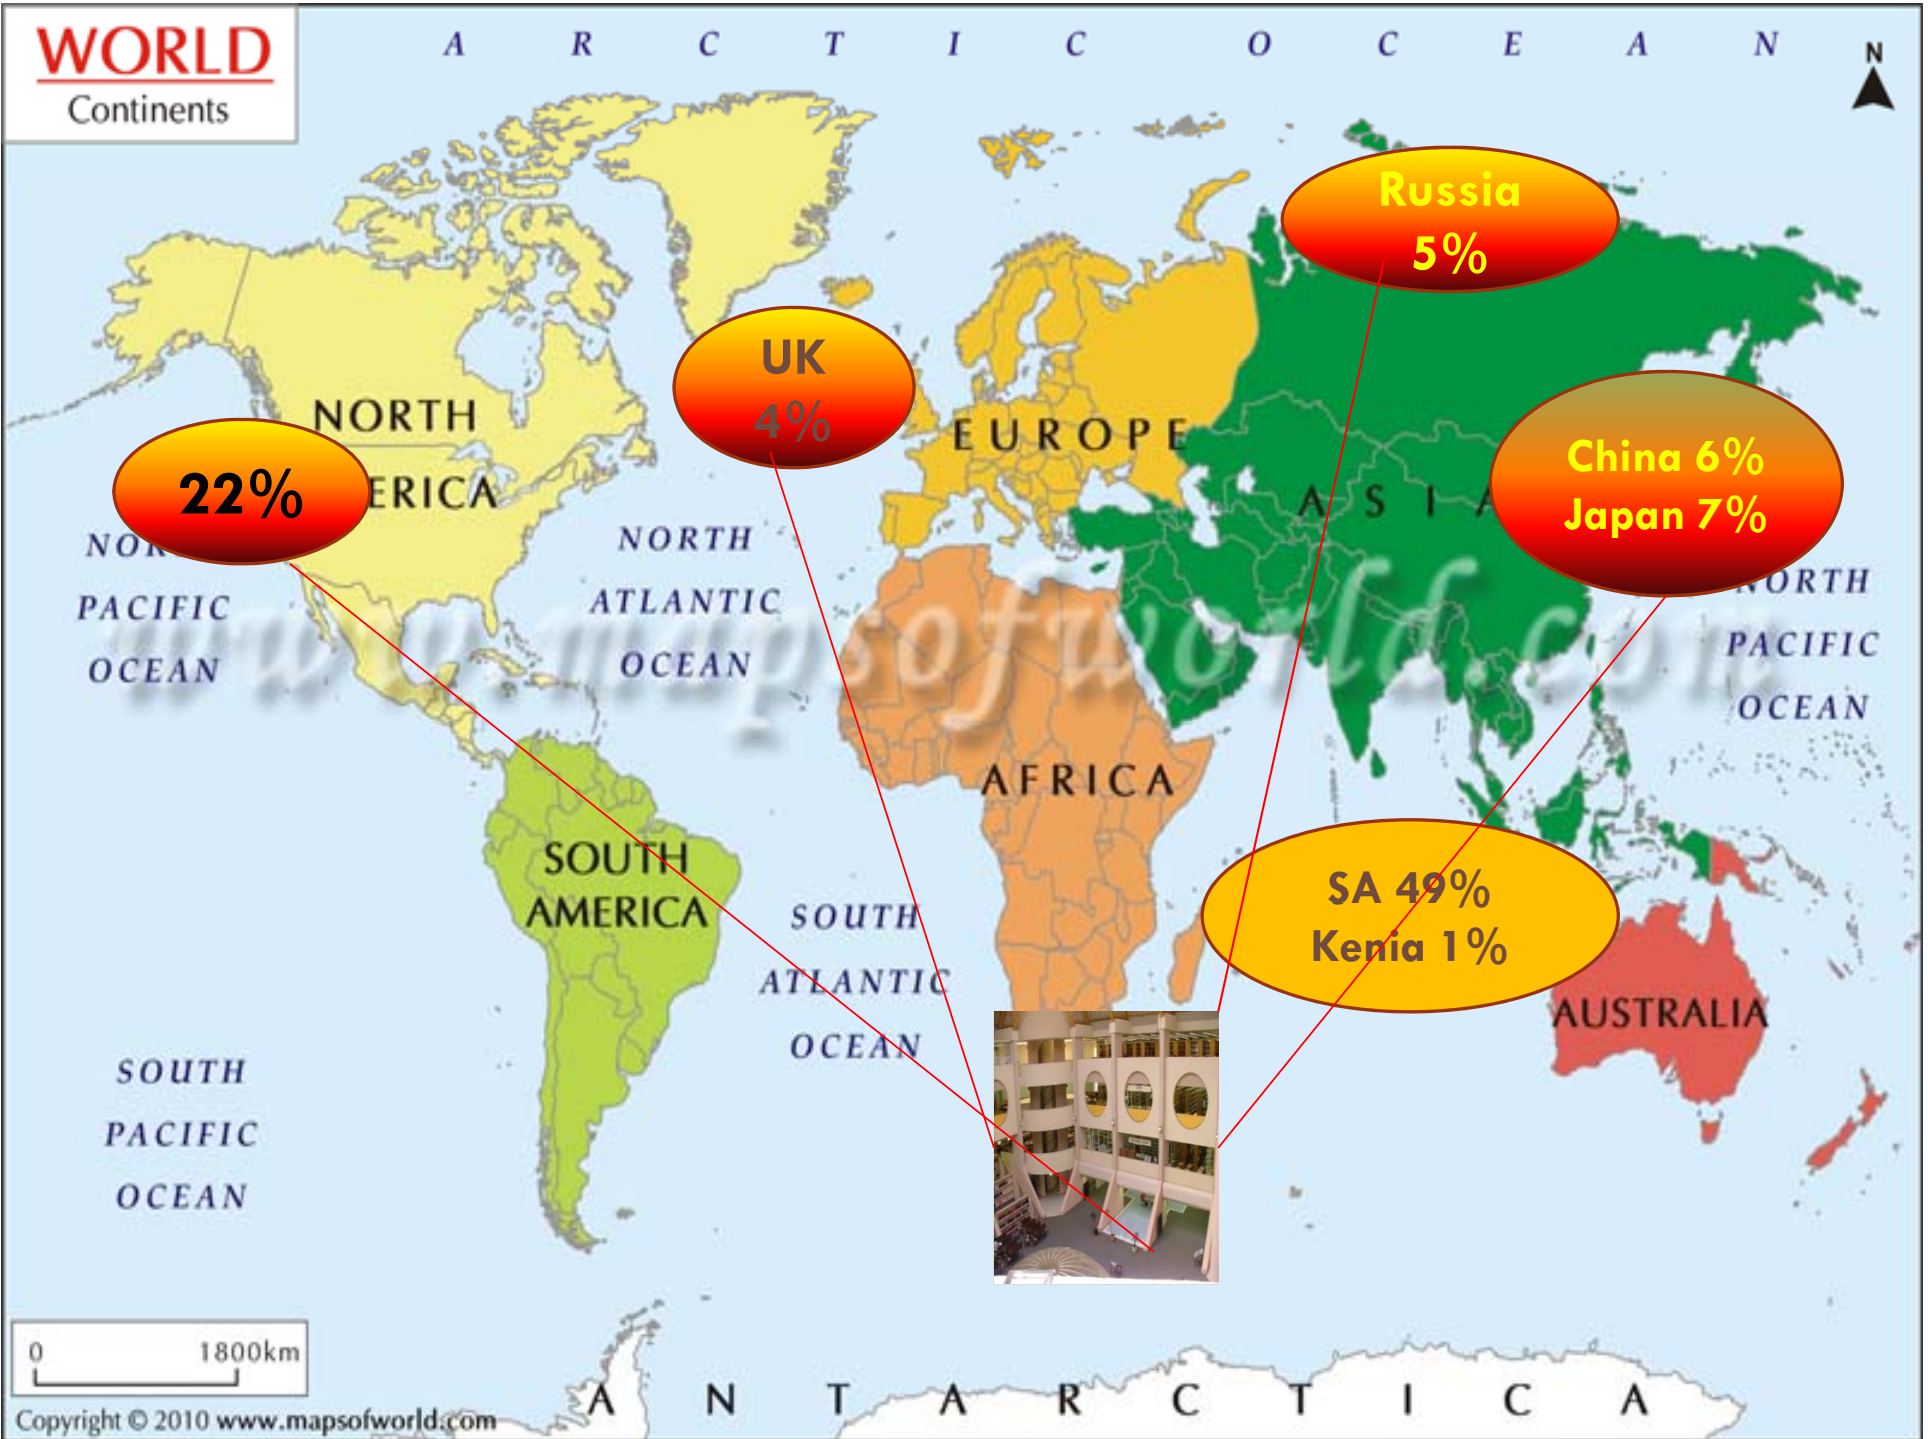

# INTERPRETATION OF USAGE STATISTICS: Searches 2010-2011

# WORLD

Continents

# Future Plans

- **Promote and support self-archiving**
- **Promote open access publishing**
- **Digitize more Uzuu collection items**
- **Digitize rare art collection**

# CHALLENGES IMPACTING ON SUCCESS

**Challenges experienced on three levels:**

- **institutional,**
- **user group and**
- **technical**

# Institutional Challenges

- **Copyright**
- **Changing policies and procedures**
- **Corporate culture**
- **Lack of KM strategies**
- **Poor inter-departmental procedural alignment**

# USER GROUP CHALLENGES

- Reluctance to share research
- Plagiarism
- Quality and integrity
- Resistance to self archiving

# Technical challenges

- Staff contingencies
- Funding contingencies
- esAL consortium
- Hardware maintenance and upgrade
- Administration of license agreements

# CURRENT STATUS

- Project well established
- Usage is encouraging
- Researcher buy in is positive
- Skills transfer taking place
- Networking positive e.g IR talk

# INSIGHTS GAINED

- **Flexible approach**
- **The champion principle worked well**
- **International interest was welcome surprise**
- **Linkages made**
- **Future plans – community participation and IKS**

# CONCLUSION

- **IR implementation was a success**
- **Must manage for sustainability**
- **Stay abreast of new developments**
- **Constant awareness and marketing**
- **More attention to curation**
- **Must link with other processes at institution e.g RIMS**
